

Year 2—Measurement

Measuring using grams

Read the scales to find out the mass of the object. Write the mass below. Don't forget your g afterwards so that we know what unit of measure you are using.

Read the scales to find the mass of each object.

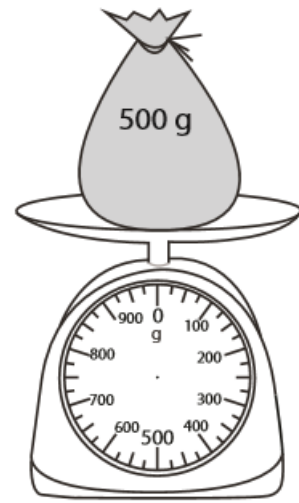

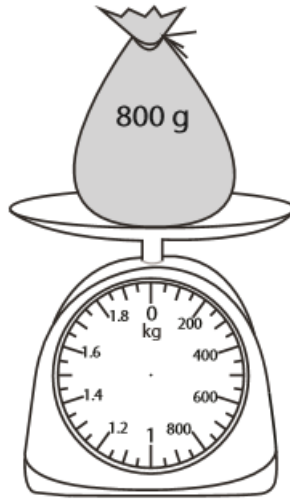

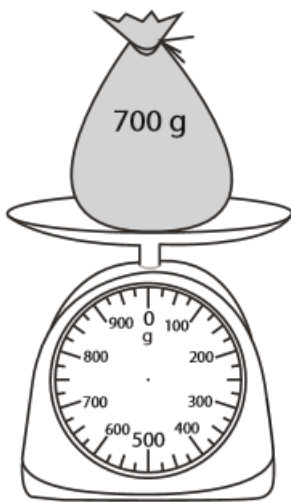

Then, order them from **heaviest to lightest**.

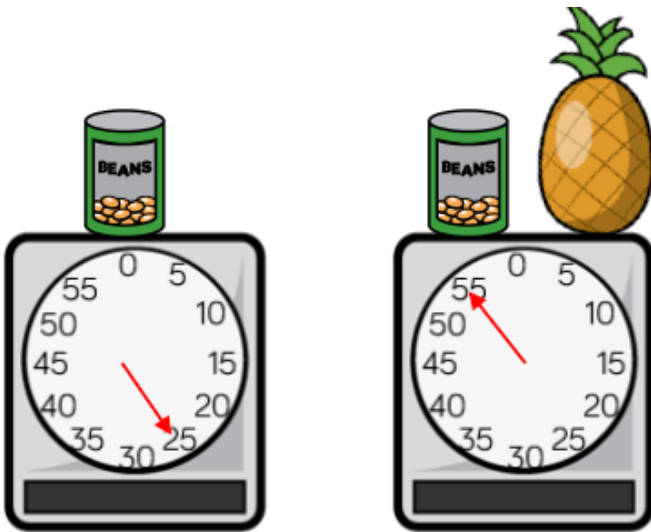

Heaviest

Lightest

Draw the needle onto the dials to show the weight of each bag.

Use your knowledge of grams to solve this puzzle.

The  weighs g.

The  weighs g.
