Year 2—Measurement

Comparing mass

Look carefully at the scales and say which is heavier and which is lighter.

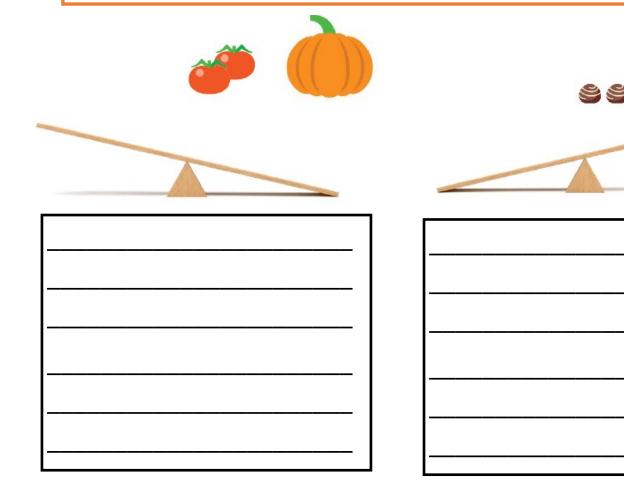

A B

____ is heavier.

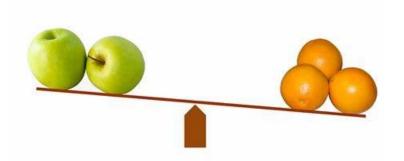

_____ is lighter.

Draw a line to show where each item should go in the scales. Then write comparison sentences

Using: less than more than heavier lighter

Read the clues carefully to work out the puzzle. Follow the steps from the example that we did on the powerpoint..

One orange weighs 6 cubes.

How many cubes will it take to balance 1 apple?

Working out.
