

Year 4 – Measure – Ordering Grams and Kilograms

Remember...

- If all of the weights are in the same unit of measure, compare them by looking at the size of the largest value first (digit furthest to the left)
- If the weights are not in the same unit of measure, convert the grams into kilograms or the kilograms into grams so that both numbers are in the same unit of measure.

Order the numbers below from smallest to largest:

1.

12 g	5 g	405 g	260 g	900 g	47 g
------	-----	-------	-------	-------	------

2.

8.5 kg	9 kg	0.9 kg	0.002 kg	0.05 kg	3 kg
--------	------	--------	----------	---------	------

3.

100g	1kg	250g	900g	4kg	1500g
------	-----	------	------	-----	-------

4.

1 kg	987g	21g	25g	2kg	20g
------	------	-----	-----	-----	-----

5.

6kg	700g	2g	459g	7kg	456g
-----	------	----	------	-----	------
